91 days

This calendar has 52 weeks and must borrow from another week to complete the year. This causes the calendar to change every year and is responsible for its confusion. Also note varying number of days in each quarter.

★ A WORLD HOLIDAY. DECEMBER W, the Year-End Day, an extra Saturday, follows December 30th every year.
 ★★ A WORLD HOLIDAY. JUNE W, the Leap-Year Day, another extra Saturday, follows June 30th in leap years.
